# IMMUNOLOGY

CONTENTS

**Vol. 42 No. 1** **January 1981**

U. C. CHATURVEDI, MANOHAR INDRA SHUKLA & ASHA MATHUR: Thymus-dependent lymphocytes of dengue virus-infected mice spleens mediate suppression through prostaglandin 1

J. GORDON, DANIELLE S. F. ROBINSON & G. T. STEVENSON: Antigenic modulation of lymphocytic surface immunoglobulin yielding resistance to complement-mediated lysis. I. Characterization with syngeneic and xenogeneic complements 7

J. GORDON & G. T. STEVENSON: Antigenic modulation of lymphocytic surface immunoglobulin yielding resistance to complement-mediated lysis. II. Relationship to redistribution of the antigen. 13

G. HOLME & H. PIECHUTA: The derivation of an inbred line of rats which develop asthma-like symptoms following challenge with aerosolized antigen 19

H. L. MULCAHY, A. S. RUBIN & A. B. MACDONALD: Purification and properties of a factor from leukaemic T cells which non-specifically enhances the antibody response 25

H. L. MULCAHY, A. S. RUBIN & A. B. MACDONALD: The conversion of an enhancing factor to a suppressor factor by the formation of an aggregate molecule 37

M. SEMMA, N. SAKATO, H. FUJIO & T. AMANO: Idiotypic analysis of antibodies to hen egg-white lysozyme (HEL). II. Distribution and frequency of occurrence of idiotypes shared by A/J anti-HEL antibody 45

W. R. THOMAS, MADELEINE C. WATKINS & G. L. ASHERSON: Differences in the ability of T cells to suppress the induction and expression of contact sensitivity 53

BARBARA L. HARPER, D. P. FINE, J. C. GUCKIAN & T. CAVALLO: Trypan blue inhibition of complement receptor function on various cells 61

CAROLYN A. BROWN, I. N. BROWN & V. S. ŠLJIVIĆ: BCG, *Corynebacterium parvum* or *Mycobacterium leprae* added to cultures of BCG-primed mouse spleen cells cause an enhanced primary antibody response *in vitro* 67

KATHRYN J. GADD & K. B. M. REID: Importance of the integrity of the inter-heavy-chain disulphide bond of rabbit IgG in the activation of the alternative pathway of human complement by the $F(ab')_2$ region of rabbit IgG antibody in immune aggregates 75

JANE PEPPARD, EVA ORLANS, A. W. R. PAYNE & ELIZABETH ANDREW: The elimination of circulating complexes containing polymeric IgA by excretion in the bile 83

JULIE CUNNINGHAM & P. MCCULLAGH: Reactivity of neuro-antigen-sensitized lymphocytes against syngeneic, allogeneic and tolerated allogeneic neural tissue 91

SARVAT GAUTHIER-RAHMAN: Immunodulation by *Corynebacterium parvum* in two strains of guinea-pigs and the effect of cyclophosphamide 99

YUMIDO NAKANO & K. NAKANO: Induction of contact sensitivity and antigenic competition by the intravenous adminstration of contact sensitizers 111

B. KENNES, CL. HUBERT, D. BROHEE & P. NEVE: Early biochemical events associated with lymphocyte activation in ageing. I. Evidence that $Ca^{2+}$ dependent processes induced by PHA are impaired 119

R. PALACIOS, D. ALARCÓN-SEGOVIA, L. LLORENTE, A. RUITZ-ARGUELLES & E. DÍAZ-JOUAŃEN: Human post-thymic precursor cells in health and disease. I. Characterization of the autologous rosette-forming T cells as post-thymic precursors 127

L. A. WARNER, P. G. HOLT & G. MAYRHOFER: Aveolar macrophages. VI Regulation of alveolar macrophage-mediated suppression of lymphocyte proliferation by a putative T cell 137

S. CABILLY & R. GALLILY: Artificial binding of macrophages to syngeneic cells elicits cytostasis but not cytolysis 149

J. VAN WAUWE & J. GOOSSENS: Monoclonal anti-human T-lymphocyte antibodies: enumeration and characterization of T-cell subsets 157

A. J. VAN HOUTE, H. SNIPPE, GEMMA T. M. PEULEN & J. M. N. WILLERS: Characterization of immunogenic properties of haptenated liposomal model membranes in mice 165

**Vol. 42 No. 2** **February 1981**

T. KASKAHARA, H. HARADA, K. SHIORI-NAKANO, M. IMAI & T. SANO: Potentiation of natural killer activity of human lymphocytes by *Staphylococcus aureus* bacteria and its protein A 175

JABBAR-S-AHMED, S. H. E. KAUFMANN & H. HAHN: Peritoneal exudate T lymphocytes with specificity to sheep red blood cells. IV. Fc receptors on specific peritoneal exudate lymphocytes and their role in delayed-type hypersensitivity reactions 185

G. CAMUSSI, M. AGLIETTA, R. CODA, F. BUSSOLINO, W. PIACIBELLO & C. TETTA: Release of platelet-activating factor (PAF) and histamine. II. The cellular origin of human PAF: monocytes, polymorphonuclear neutrophils and basophils 191

C. J. SANDERSON: The mechanism of T-cell mediated cytotoxicity. VIII. Zeiosis corresponds to irreversible phase (programming for lysis) in steps leading to lysis 201

C. J. HACKETT & BRIDGITTE A. ASKONAS: H-2 expression by lymphoid cells of different mouse strains: quantiative interaction of H-2 with monoclonal antibodies and their Fab fragments 207

I. MCCONNELL & J. HOPKINS: Lymphocyte traffic through antigen-stimulated lymph nodes. I. Complement activation within lymph nodes initiates cell shutdown 217

J. HOPKINS, I. MCCONNELL & J. D. PEARSON: Lymphocyte traffic through antigen-stimulated lymph nodes. II. Role of prostaglanding $E_2$ as a mediator of cell shutdown 225

A. J. VAN HOUTE, H. SNIPPE, GEMMA T. M. PEULEN & J. M. N. WILLERS: Characterization of immunogenic properties of haptenated liposomal model membranes in mice. III. Specificity of delayed-type hypersensitivity and antibody formation 233

S. F. SCHLUTER, P. L. EY, DEIRDRE R. KEOUGH & C. R. JENKIN: Identification of two carbohydrate-specific erythrocyte agglutinins in the haemolymph of the protochordate *Botrylloides leachii* 241

J. N. UNDALL, K. J. BLOCH, L. FRITZE & W. A. WALKER: Binding of exogenous protein fragments to native proteins: possible explanation for the overestimation of uptake of extrinsically labelled macromolecules from the gut. 251

KAZUYUKI KATO, KEN-ICHI YAMAMOTO, MITSUAKI KAKINUMA, CHIAKI ISHIHARA & ICHIRO AZUMA: Suppression of BCG cell wall induced delayed-type hypersensitivity by BCG pre-treatment. I. Induction of adherent suppressor cells by live BCG injection and their characterization 259

P. P. LE BOUTEILLER, G. L. ASHERSON & A. J. EDWARDS: Control of B-cell maturation in mice. I. Increased B-Cell maturation *in vitro* by bone marrow protected during whole body irradiation 267

B. DEZSÖ & GARBRIELLA FÓRIS: Effect of angiotensin II on the Fc receptor activity of rat macrophages 277

W. CHEN, M. TEODORESCU, I. F. C. MCKENZIE & E. P. MAYER: Functional characterization of mouse lymphocyte subpopulations identified by their natural binding of bacteria. II. Identification of subpopulations of Ly-$1^+2^-3^-$, Ly-$1^-2^+3^+$ and Ly-$1^+2^+3^+$ cells and the localization of specific cytotoxic cells in a subset of Ly-$1^-2^+3^+$ cells. 285

G. D. HARKISS & D. L. BROWN: Clearance kinetics of soluble pre-formed immune complexes containing IgM antibodies in normal and decomplemented rabbits 297

F. KIERSZENBAUM & DELIA B. BUDZKO: The guinea-pig complement-activating lymphocyte surface component (GPCA): a mouse T-cell marker distinct from Thy-1 307

P.J. BROWN & P. M. JOHNSON: Fc$\gamma$-receptor activity of isolated human placental syncytiotrophoblast plasma membrane 313

R. W. BERGENSTOCK, S. COHEN & TAKESHI YOSHIDA: T and B-cell activation by mitogenic factor generated from antigen-stimulated lymphocytes 321

P. J. LACHMANN. A. VYAKARNAM & K. SIKORA: The heterogenization of tumour cells with tuberculin. I. The coupling of tuberculin to cell surfaces using Con-A as ligand 329

A. VYAKARNAM, P. J. LACHMANN & K. SIKORA: The heterogenization of tumour cells with tuberculin II. Studies of the antigenicity of tuberculin-heterogenized murine tumour cells in syngeneic BCG positive and BCG negative mice 337

P. B. MEDAWAR & RUTH HUNT: Anti-cancer action of retinoids 349

J. P. TITE, C. A. MORRISON & R. B. TAYLOR: Immunoregulatory effects of covalent antigen–antibody complexes. III. Enhancement or suppression depending on the time of administration of complex relative to a T-independent antigen 355

**Vol. 42 No. 3** **March 1981**

K. FUJITA & S. TSUKIDATE: Preparation of a higly purified allergen from *Dirofilaria immitis*. Reaginic antibody formation in mice 363

F. TAKEI, D. S. SECHER, C. MILSTEIN & T. SPRINGER: Use of a monoclonal antibody specifically non-reactive with T cells to delineate lymphocyte subpopulations 371

H. U. KELLER, J. H. WISSLER & B. DAMERAU: Diverging effects of chemotactic serum peptides and synthetic f-Met-Leu-Phe on neutrophil locomotion and adhesion 379

C. RÖPKE: Characterization of Thy 1·2 positive cells in mouse bone marrow by sedimentation and mitogen stimulation 385

T. ROMPPANEN, M. K. VILJANEN & E. SORVARI: Humoral immunodeficiency in chickens induced by chemical bursectomy with colchicine applied on the anal lips 391

MADELIENE DUC DODON & G. A. QUASH: The antigencity of asialyated IgG: its relationship to rheumatoid factor 401

P. G. Holt, J. E. Batty & K. J. Turner: Inhibition of specific IgE responses in mice by pre-exposure to inhaled antigen 409
F. Uher, I. Dobronyi & J. Gergely; IgM-Fc receptor-mediated phagocytosis of rat macrophages 419
Rivka Goren & D. Nelken: The inhibitory effect of normal immunosuppressive protein on lymphocytes mediating natural killing activity 427
S. R. Hamilton, D. F. Keren, J. H. Yardley & Gertrude Brown: No impairment of local intestinal immune response to keyhole limpet haemocyanin in the absence of Peyer's patches 431
A. van Oudenaren, J. J. Haaijman & R. Benner: Frequencies of background cytoplasmic Ig-containing cells in various lymphoid organs of athymic asplenic (lasat), athymic asplenic and normal BALB/c mice 437
S. Yoshida, K. Nomoto, K. Himeno & H. Sanui: Delayed hypersensitivity to syngeneic or xenogeneic testicular cells in guinea-pigs 445
S. H. Gregory & M. Kern: Mitogenic response of T-cell subclasses to agarose-linked and to free ribonucleotides 451
M. J. Ricardo, Jr: Isotype specificity of Fcγ-receptors on guinea-pig T lymphocytes and their modulation by homologous immune complexes 459
M. A. Bennell & A. J. Husband: Route of lymphocyte migration in pigs. I. Lymphocyte circulation in gut-associated lymphoid tissue 469

M. A. Bennell & A. J. Husband: Route of lymphocyte migration in pigs. II. Migration to the intestinal lamina propria of antigen-specific cells generated in response to intestinal immunization of the pig 475
J. G. Lewis & C. M. André: Enhancement of human monocyte phagocytic function by $\alpha_2$ HS glycoprotein 481
Book Reviews 489
Erratum 495

**Vol. 42 No. 4** **April 1981**

B. Bockow & M. Mannik: Clearance and tissue uptake of immune complexes in complement-depleted and control mice 497
J. P. Mortensen & L. U. Lamm: Quantitative differences between complement factor-B phenotypes 505
F. W. Ryning, J. L. Krahenbuhl & J. S. Remington: Comparison of cytotoxic and microbicidal function of bronchoalveolar and peritoneal macrophages 513
Maria Teresa Rimoldi, Rita L. Cardoni, Susana E. Olabuenaga & Maria M. de E. de Bracco: *Trypanosoma cruzi:* sequence of phagocytosis and cytotoxicity by human polymorphonuclear leucocytes 521
G. Pawelec, A. Rehbein, C. Müller, H.-H. Sonneborn & P. Wernet: Human T lymphocytes grown in T-cell growth factor: functional attributes in MLC, CML, PLT and allogeneic suppression 529
P. Subramonia Pillai & V. R. Muthukkaruppan: The role of T and B antigen-binding cells in the immune response to sheep erythrocytes in the lizard, *Caltoes versicolor* 541

J. M. DWYER, D. PARKER & J. L. TURK: Suppression of delayed hypersensitivity to tuberculin by antigenic competition. A positive immuoregulatory mechanism sensitive to cyclophosphamide 549

J. D. GRAY, C. G. BROOKS & W. R. BALDWIN: Detection of either rapidly cytolytic macrophages or NK cells in 'activated' peritoneal exudates depends on the method of analysis and the target cell type 561

C. E. HORMAECHE, R.A. PETTIFOR & J. BROCK: The fate of temperature-sensitive salmonella mutants *in vivo* in naturally resistant and susceptible mice 569

K. J. BEH & A. K. LASCELLES: The effect of route of administration of antigen on the antibody-containing cell response in lymph of sheep 577

MARLENE L. ROSE & FIORELLA MALCHIODI: Binding of peanut lectin to thymic cortex and germinal centres of lymphoid tissue 583

A. N. BARCLAY: The localization of populations of lymphocytes defined by monoclonal antibodies in rat lymphoid tissues 593

S.-K. LEE & D. W. DRESSER: Allotype suppression of the responsiveness of adoptively transferred adult spleen cells induced by affinity prepared anti-allotype antibody 601

W.-K. LEE & D. W. DRESSER: Allotype suppression induced in the adoptive transfer system: the variables of the system and an apparent absence of a role for T cells 611

J. C. WALDREP & A. C. REESE: Polyclonal immunoglobulin synthesis induced by a macrophage factor acting via T cells 619

R. M. HELM & A. FROESE: The incorporation of tritiated precursors into receptors for IgE of rat basophilic leukemia cells 629

P. C. WILKINSON & GRAINNE R. BRADLEY: Chemotactic and enzyme-releasing activity of amphipathic proteins for neutrophils. A possible role for proteases in chemotaxis on substratum-bound protein gradients 637

JENNIFER LOWE, DEBBIE HARDIE, R. JEFFERIS, N. R. LING, PAMELA DRYSDALE, P. RICHARDSON, CHANDRA RAYKUNDALIA, D. CATTY, P. APPLEBY, R. DREW & I. C. M. MACLENNAN: Properties of monoclonal antibodies to human immunoglobin kappa and lambda chains 649

DEIRDRE R. COOMBE, P. L. EY, S. F. SCHLUTER & C. R. JENKIN: An agglutinin in the haemolymph of an ascidian promoting adhesion of sheep erythrocytes to mouse macrophages 661

BOOK REVIEWS 671
